

FMC Broadacre Cropping

FMC offers a range of plant protection solutions for use in various crops and situations in the Northern Cropping Region.

Insecticides

Altacor® is a robust larvicide with excellent residual activity helping to keep your Cotton and Pulse crops free from labeled pests. Altacor® provides low disruption to key beneficial insects, translaminar movement for control on the underside of the leaf and excellent user safety.

Altacor®
INSECTICIDE

Danadim® is a patented, low odour 400 g/L dimethoate formulation with a unique stabiliser. Danadim® is used for the control of a wide range of insect pests in various crops and has some unique label claims.

Danadim®
INSECTICIDE

Dominex® Duo, 100 g/L alpha-cypermethrin. Controls insect pests of cereals, cotton, grain legumes, oilseeds, and pastures.

Dominex® Duo
INSECTICIDE

Steward® EC is a highly effective insecticide for Cotton, Azuki bean, Mung bean, Faba bean, Chickpea and Soybean crops.

Steward® EC
INSECTICIDE

Talstar® 250 EC is a contact and residual insecticide/miticide. It can be used as a protective treatment when applied at regular intervals or as a knockdown treatment to control existing pests.

Talstar® 250 EC
INSECTICIDE / MITICIDE

Trojan® is a highly potent, low dose rate pyrethroid insecticide with smaller packs and short WHP's. The unique microencapsulation technology significantly reduces the risk of face burn (paraesthesia) and gives a wide range of tank mix compatibilities. Trojan® is currently the only S5 pyrethroid on the market.

Herbicides

Chaser® S is a residual pre-emergent herbicide for the control of many important annual grasses and broadleaf weeds in Cotton, Maize, Pasture, Peanuts, Soybeans, Sunflowers, Sorghum and Sugar Cane.

Chaser® S
HERBICIDE

Express® is a specialist fallow weed control herbicide that allows you to target a specific spectrum of broadleaf weeds while retaining flexibility for your cropping program.

Express®
HERBICIDE

Flotilla® controls a wide range of broadleaf weeds in various cropping, non-crop, commercial and industrial areas.

Flotilla®
HERBICIDE

Foxtrot® is an oil in water emulsion formulation with a unique active/safener combination. Foxtrot® is for the selective control of Wild oats and Annual phalaris in Wheat, Barley, Triticale and Cereal rye crops.

Foxtrot®
HERBICIDE

Hammer®, for improvement in the control of Marshmallow and certain other broadleaf weeds prior to establishment of broadacre crops, fallows, and in commercial, industrial and public service areas, in tank mixture with knockdown herbicides.

Hammer® 400 EC
HERBICIDE

Tribal® controls certain broadleaf weeds in fallow and pre-crop situations while retaining flexibility for your cropping program.

Tribal®
HERBICIDE

Spray Oils and Adjuvants

Canopy® features a patented formulation built from an nC27 paraffinic oil for maximum insecticidal efficacy; a unique UV absorber additive that protects against phytotoxicity; and biodegradable, phyto-safe emulsifiers for superior leaf coverage and droplet retention.

Canopy®
CROP OIL

Dead Sure® is a drift reducing adjuvant developed specifically as the key component of a broader spray drift reduction system (DRS) in collaboration with leading spray nozzle manufacturer, TeeJet.
