

# FMC Melon Portfolio

## Insecticides

Avatar® eVo\* insecticide, active ingredient indoxacarb, works rapidly to protect a broad mix of fruits and vegetables including Cucurbit crops from a unique spectrum of pests including Cotton bollworm, Native bollworm and Cluster caterpillar.

Its unique mode of action has a low impact on beneficial insects with no cross-resistance to other insecticides making it an excellent rotational tool.

Avatar® eVo  
INSECTICIDE

Benevia® is a Group 28 insecticide providing unique cross-spectrum activity on a range of key chewing & sucking pests in Fruiting vegetable and Cucurbit crops including Melon aphid, Silverleaf whitefly, Cotton bollworm, Cucumber moth and Native budworm.

Benevia®  
INSECTICIDE

Coragen® is an anthranilic diamide insecticide in the form of a suspension concentrate for the control of Lepidopteran species of insect pests in certain vegetables, targeting Cotton bollworm, Native bollworm and Cucumber moth.

Coragen®  
INSECTICIDE

## Herbicides

Command® 480 EC Herbicide is primarily a soil applied herbicide for the control of certain annual weeds including Apple of Peru (*Nicandra physalodes*), Blackberry nightshade (*Solanum nigrum*), Fathen (*Chenopodium album*), Pig weed (*Portulaca oleracea*), Potato weed (*Galinsoga parviflora*) and suppression of Amaranth (*Amaranthus powellii*).

DO NOT apply to soil intended for seedling transplants.

Command® 480 EC  
HERBICIDE

Fuzilier® Selective herbicide is rapidly absorbed by leaves and green stems (is rainfast within one hour) and translocated throughout the plant. It accumulates at growing points, both above ground and in the roots, rhizomes and stolons of problem grass weeds.

Fuzilier®  
HERBICIDE

## Spray Oils and Adjuvants

Bioclear® insecticide is a very highly refined, narrow range, emulsifiable, paraffinic horticultural oil, targeting pests such as Aphids, Mites, Thrips and Leafhopper.

Bioclear®  
PARAFFINIC OIL

D-C-Maxx® is a horticultural paraffinic oil (HPO) that takes spray oil technology to new heights. D-C-Maxx® works in partnership with beneficial insects to control or suppress pests such as San José scale, Californian red scale, and silverleaf whitefly on tree, vine and vegetable crops.

D-C-Maxx®  
nC<sub>24</sub> HORTICULTURAL PARAFFINIC OIL
