

# FMC Strawberry Portfolio

FMC offers a range of plant protection solutions for use in Strawberry production.

## Insecticides

Avatar® eVo works differently to other insecticides and is highly effective against a wide range of pests including suppression of European earwig (*Forficula uriculari*).

Avatar® eVo  
INSECTICIDE

Benevia® provides highly effective cross spectrum protection on a range of key chewing, sucking and rasping pests. Rapidly stopping insects feeding reducing further damage to the plant, ensuring maximum marketability of your crop.

Benevia®  
INSECTICIDE

Coragen® insecticide is a robust larvicide with good residual activity and a favourable IPM profile. Coragen® will help you to control Cluster caterpillar (*Spodoptera litura*), Cotton bollworm (*Helicoverpa armigera*), and Native Budworm (*Helicoverpa punctigera*) in both field and protected cropping systems.

Coragen®  
INSECTICIDE

Fyfanon® 440 EW is an oil in water emulsion maldison formulation with improved dermal toxicity. Fyfanon® 440 EW controls a wide range of pests including Fruit fly in Strawberries.

Fyfanon® 440 EW  
INSECTICIDE

Vantal® Upgrade 36 EW is a 36 g/L oil in water emulsion abamectin formulation for the control of Two spotted mite and Western flower thrips.

Vantal® Upgrade 36 EW  
INSECTICIDE

## Herbicides

Fuzilier® herbicide, used for the control of certain grasses, is rapidly absorbed by leaves and green stems and translocated throughout the plant. It accumulates at growing points, both above ground and in the roots, rhizomes and stolons of grass weeds.

Fuzilier®  
HERBICIDE

## Fungicide

Octave® WP is highly effective against Colletotrichum crown rot and Stolon rot. The active ingredient of Octave®, prochloraz, possesses locally systemic properties and has strong contact and some translaminar mobility, it therefore exhibits both protectant and eradicant activity.

Octave® WP  
FUNGICIDE

Rovral® Aquaflo is used for the control of Grey mould.

Rovral® 250SC contains a mineral oil that assists with the coverage and rainfastness. Used for control of Grey mould.

Rovral®  
FUNGICIDE

## Spray Oils and Adjuvants

Bioclear® is a highly refined, narrow range, emulsifiable, paraffinic horticultural oil. Designed as a stand-alone insecticide to control pests such as Aphids and Mites on a broad range of crops and ornamentals.

Registered in NSW/ACT/SAA/WA/TAS

Bioclear®
